

## New visa application drop boxes South America

Immigration New Zealand and the Ministry of Foreign Affairs and Trade have introduced new visa application drop box services in North Asia and South America.

The drop boxes are available at the following New Zealand Diplomatic Missions:

- Santiago (for Central and South America)
- Sao Paulo (for Central and South America).

Customers are able to drop off, post or courier their visa application to these drop boxes.

Applications will then be forwarded by the Diplomatic Mission to the relevant Visa Application Centre (VAC). Once processed by Immigration New Zealand, the finalised documentation will be sent back to the VAC where customers will be able to pick up their documents or arrange for a courier to have their documents returned directly to them.

VACs provide visa facilitation services only. They cannot provide immigration advice and have no influence over the outcome of an application for a New Zealand visa. That can only be decided by an INZ officer.

VACs improve customer service through quicker visa processing times.

Customers still have the option of sending their visa applications directly to the VACs. Using this option may result in a more timely decision as the application will reach the VAC more quickly. If customers choose to do this they are responsible for paying the associated postage or courier costs.
